An ordinance aimed at creating healthier environments, by prohibiting smoking in publicly accessible buildings, was given the nod of approval by Del Rio City Council Tuesday night by a vote of 6 to 1. The new law will go into effect May 1.

"Ordinance No. 0:2003-17" evolved over nearly three months of deliberations by council members, staff work by city employees, and robust debate among Del Rio citizens and business owners. First proposed with a surprise announcement by Councilman Robert Garza, Wednesday, Jan. 22, prospects for the draft ordinance waxed and waned until last night's vote to make it law.
